Notes:

They have definitely changed the schedule for this competition. Our performance time will be based on how we place at the Jenison invitational the week before. This schedule reflects our earliest possible performance time. Awards and arrival back at OV will not change.

Once again there is a long amount of time between our performance and awards. If the weather is nice we will plan to stay, watch other bands and hit the concessions stands. If the weather is unpleasant we will return to OV early. Students may be signed out after Awards with any exceptions to that needing to be taken care of before the day of the competition.

Boosters will provide lunch, students should bring money or food for dinner.
